Significant Events

No significant events for this reporting period

Field Operations

Activity: Amarillo Aluminum Phosphide Incident

Location: Amarillo TX

Contact: Jhana Enders

Start Date: 2017/01/13 **Type:** Emergency **Status:** Active
Response

Comments: EPA Multi Media Division is hosting coordination calls to share situational awareness and coordinate future public information releases.

EPA continues to support the local and state response efforts within unified command.

The local health department has requested 7 cumulative days of air monitoring with Non Detect results prior to confirmatory sampling.

EPA, TCEQ and ATSDR is providing technical assistance to health agencies to determine re habitation plans. The local health authority will make final determination if home is safe for re habitation.

The locals have secured the property preventing the public from having access.

TCEQ and EPA continue cleanup. Spent aluminum phosphide has been secured and is being deactivated on the property.

EPA has mobilized a mobile command post to support in the ongoing TCEQ/EPA operations.

Activity: Broken Arrow Mercury Spill

Location: Broken Arrow OK

Contact: Eric Delgado

Start Date: 2017/01/13 **Type:** Emergency **Status:** Active
Response

Comments: EPA is awaiting air sampling results. Results should be available on 01/13/2017.
